the friends of John G. Carlisle, the Sec. etary of the Treasury, tried vesterday to make ex planations of his decision to deduct from their annual recations the time occupied by the few old veterans in the Custom House who fought at the Battle of Gettysburg and in going to the battledeld to take part in the ceremonies held in the National Cemetery there on July 2. Every one who tried his hand at explaining used the argument that a veteran of the war was no better than any one else, and if the leterans went away they should pay for it, just as iny other employe should. The men who made this brgument, however, were men who did not have the east appreciation of the risks taken by the men who the service of the Union. They were men who look upon things from a purely financial point of New. It is true that the veterans who went to Gettys. jurg last week did not do duty for about thirty-six lours. But at one time they did do duty which the tire world to-day is applanding.

The publication yesterday in The Tribune of the

article showing that John G. Carlisle, of Kentucky, mown as "Kentucky's Fairest Son," now the Sec-tetary of the Treasury, had declared that every reteran employed in the Custom House who went to Settysburg to attend the ceremonies of the dedicahave the time taken from his annual vacation created much excitement in the Custom House. The veterans here glad that the public had been informed of the namer in which they are bring treated. A Tribune reporter talked with several of the veterans, and their names would be used if it were not for the fear that becretary Carlisle would take advantage of his posilion to make excuses for removing them. One of

the veterans said :

I made application for leave to go to Gettysburg. as I was a member of one of the regiments which played an important part at the battle, believing that the same course which had previously been followed would be observed. But to my astonishment a few hours before I was to start we received an order from the Treasury Department that every one who went to Getty-burg would have the time deducted from his annual vacation. This was something un-heard of. Heretofore we have been allowed the day ir two necessary for us to go to these affairs in which the dignity of the State was at stake, and our which the dignity of the State was at state, and our basociates have willingly done our work for us. They were none the less ready to do it this time. We understood further that it was the personal request of General Sickles shat we be allowed to go, so that we would swell the numbers of those who attended the dedication ceremonies. General Sickles is a Demourat and a member of Congress, but I think that his bersonal request, supported by the approval of the Collector, ought to have had some weight.

TABERNACLE BAPTIST CHURCH TROUBLES GROW APACE, AND MR. PUTNAM IS STILL

UNSILENCED. The investigating committee of the Tabernacle Baptist Church gave its report last night on the charges made by the Rev. J. W. Putnatn and John T. Howell against the pastor, the Rev. Dr. D. C. Potter Dr. Potter was exonerated from all the charges. Mr. Putnam was severely scored and was cited to appear before the committee to night to answer the

charge of having violated the rules of the church.

The committee in its report paid special attention to each charge and gave a separate judgment on each one. As to the loss of the Denile Fund, the committee found that it was neither lost nor imperfiled, and that Dr. Potter had not used it for his own benefit. The committee reported that it had examined the financial records of the church and found all records. and found all moneys accounted for. The charge that Dr. Potter was in financial difficulties was found to be true, but it was so because he had been too generous with his money for charitable work. The rge of untruthfulness was found to be unworthy consideration. The charge of immorality was declared to be wholly unsupported by evidence, and as to the charge of intoxication, no proof was given show that it was true.
